

Saint Vincent Collage
Office of Admission

Philosophy of Application Review

The Office of Admission at Saint Vincent College reviews each applicant from a holistic perspective assessing each student for academic performance, fit with the mission of SVC, meaningful engagement in school and/or community, personal story and potential for success at Saint Vincent. We commit to a human being reading and reviewing every material submitted with an application so that we make the most informed decision we can on every application.

If a student is denied admission to Saint Vincent upon first application, we counsel the student on alternative pathways to success and to potentially apply to Saint Vincent in the future.
